

Whale Shark Snorkel La Paz Day Tour

Spend an extra day in Mexico snorkeling with whale sharks in the shallow bay of La Paz. Take a skiff out and enjoy the sunny skies of La Paz while searching for whale sharks, dolphins & watching the birds fly over. Once a whale shark is found, hop into the water with your whale shark specialist and follow the whale shark as it snacks on plankton. These juvenile whale sharks that roam the La Paz waters can vary in size, and tend to move fairly slowly as they eat. This is also a perfect way to see the waters around La Paz, as well as Espiritu Santo in the distance. Maximum 8 passengers per boat.
